

Halves

Day 1 Sheet 1

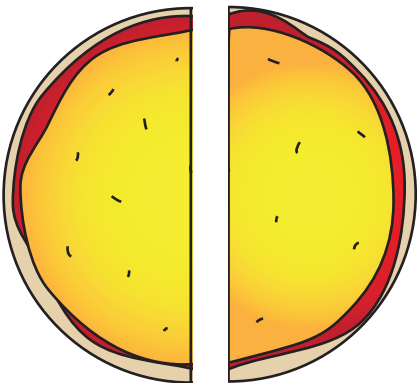

Draw 4 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 4 is

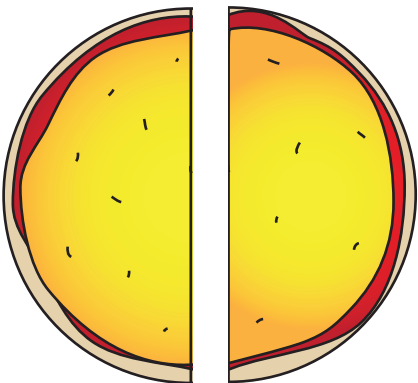

Draw 10 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 10 is

Draw 8 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 8 is

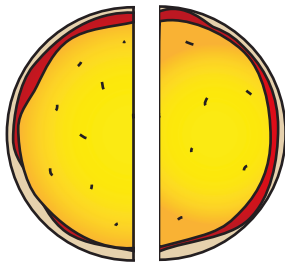

Draw 6 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 6 is

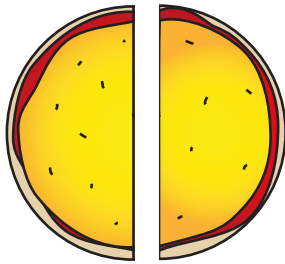

Halves

Day 1 Sheet 2

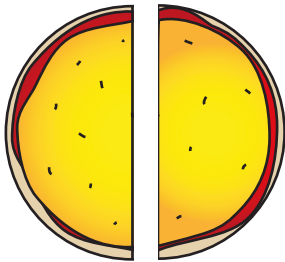

Draw 6 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 6 is

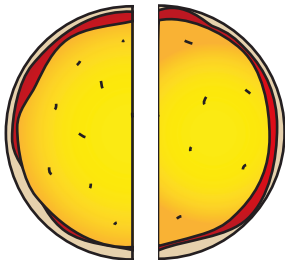

Draw 10 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 10 is

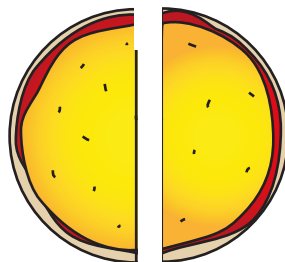

Draw 18 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 18 is

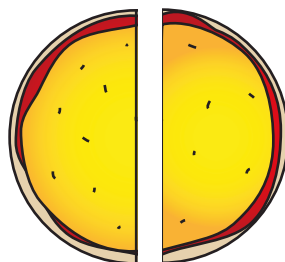

Draw 20 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 20 is

Draw 8 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 8 is

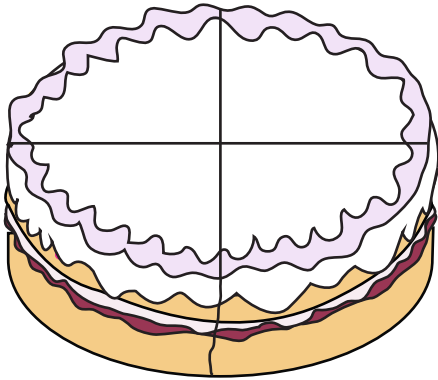

Draw 22 pieces of pepperoni around the pizza so that each half has the same amount.

$\frac{1}{2}$ of 22 is

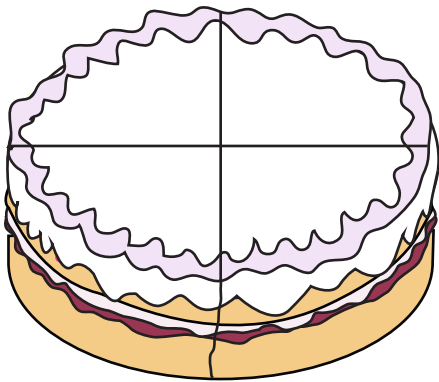

Quarters

Day 2 Sheet 1

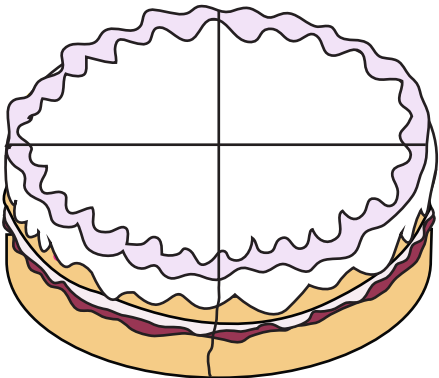

Draw 8 sweets around the cake so that each slice has the same amount.

$\frac{1}{4}$ of 8 is

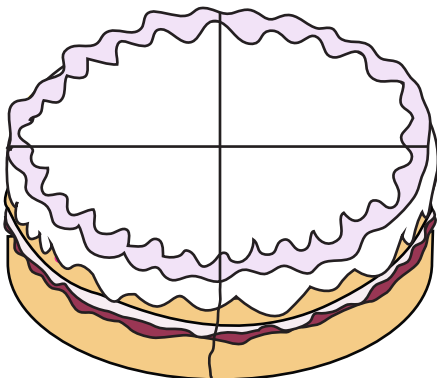

Draw 4 sweets around the cake so that each slice has the same amount.

$\frac{1}{4}$ of 4 is

Draw 12 sweets around the cake so that each slice has the same amount.

$\frac{1}{4}$ of 12 is

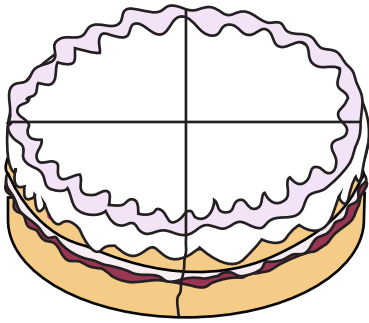

Draw 16 sweets around the cake so that each slice has the same amount.

$\frac{1}{4}$ of 16 is

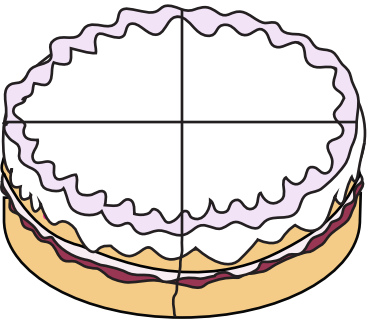

Quarters

Day 2 Sheet 2

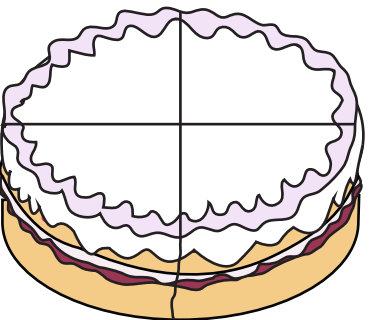

Draw 12 sweets around the cake so that each slice has the same amount.

$\frac{1}{4}$ of 12 is

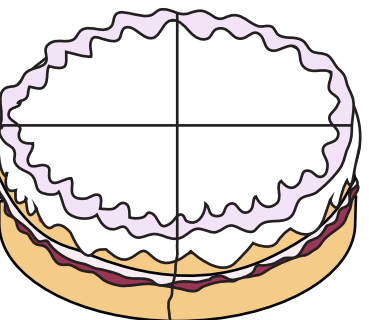

Draw 8 sweets around the cake so that each slice has the same amount.

$\frac{1}{4}$ of 8 is

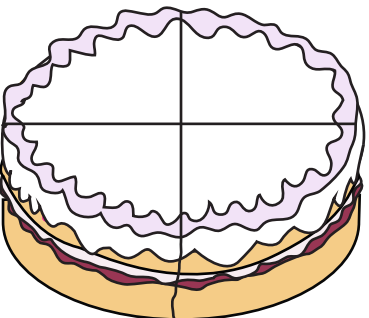

Draw 24 sweets around the cake so that each slice has the same amount.

$\frac{1}{4}$ of 24 is

Draw 16 sweets around the cake so that each slice has the same amount.

$\frac{1}{4}$ of 16 is

Draw 20 sweets around the cake so that each slice has the same amount.

$\frac{1}{4}$ of 20 is
