

Features of a River

Aim

- I can describe the key features of a river system.

Success Criteria

- I can tell you some of the features of a river's upper course.
- I can tell you some of the features of a river's middle course.
- I can tell you some of the features of a river's lower course.

The Life of a River

Activity

Tell your partner the life story of a river.

- Where might it be born?
- What kinds of places and events might it see along its life journey?
- Where does its life end?

The Life of a River

Do you know what any of these words mean?

- upper course
- middle course
- lower course
- valley
- channel
- waterfall
- rapids
- gorge
- meander
- tributary
- Floodplain
- confluence
- levee
- delta
- estuary

The Life of a River

Rivers can be divided into three stages:

The Upper Course

Rain falling in highland areas flows downwards and collects in channels, forming a stream. As the stream continues to run downhill, it is joined by other streams and increases in size and speed. The point where two rivers join is called a confluence.

The Middle Course

As a river reaches its middle course, the fast flowing water causes erosion, which makes it deeper and wider. The river erodes left and right, forming horse-shoe like loops called meanders.

The Lower Course

In the lower course, a river is in flatland and flows slowly. The force of the water is lower than in the other stages, so the river deposits all the bits of eroded land it has been carrying with it.

The Upper Course

What is the river like along its upper course?

- Fast flowing
- Features - Waterfalls, rapids, gorges.
- Valley shape, steep sides and spurs
- Narrow Channel

The Middle Course

What is the river like along its middle course?

- Slower flowing
- Features- Meanders/loops, tributaries, oxbo lakes, confluences
- Wider Valley shape, less steep sides
- Wider Channel

The Lower Course

What is the river like along its lower course?

- Slower flowing
- Features- Flood plains, levees, delta, estuary.
- Wider valley shape less steep sides
- deep, wide channel

River Features

Activity

Use the features of rivers vocabulary to label the river system.

Challenge: can you describe the river during the upper, middle and lower courses? How does it change?

Three overlapping worksheets titled "River Features" are shown, each with a diagram of a river system and a word bank for labeling.

The top worksheet has a star icon and a title box. Below the title, it says "Use the labels at the bottom of the page to identify each of the parts of the river system." The diagram shows a river flowing from a mountain range into a valley, with various features labeled with lines pointing to them.

The middle worksheet has two star icons and a title box. Below the title, it says "Use the word bank at the bottom of the page to identify each of the parts of the river system." The diagram shows a river flowing through a valley, with various features labeled with lines pointing to them.

The bottom worksheet has three star icons and a title box. Below the title, it says "Label each of the parts of the river system." The diagram shows a river flowing through a valley, with various features labeled with lines pointing to them.

Word bank for the middle and bottom worksheets:

channel	confluence	delta	estuary	floodplain
meander	mouth	oxbow lake	source	weir/fall

What's the River like There?

Where along a river's course might you find each feature?

Some words might go in more than one column!

Upper Course	Middle Course	Lower Course
valley channel waterfall rapids gorge tributary	valley channel tributary confluence meander	valley channel floodplain delta estuary
