

Mathematics

Number: numbers to 50:

Compare numbers to 50. Count in 2s and 5s

Introducing length and height:

Use non-standard units to measure an object.
Measure with a ruler.

Introducing weight and volume:

Weigh objects. Measure capacity.

Multiplication:

Count in 10s, 5s and 2s. Make arrays and doubles.

Division:

Make equal groups. Share amounts equally.

English

Our Power of Reading books this term are:

- Hummingbird by Nicola Davies
- The Secret Sky Garden by Linda Sarah

Please do not read these books to your child as it will spoil their experiences during English lessons.

These high-quality books will engage the children and enable us to explore the characters and narratives in detail. We will be writing for a range of purposes, including, instructions, story writing, discussions and reports.

We will be refreshing our phonic knowledge and building on this in our independent writing.

We will be developing our use of correct sentence structure and different types of punctuation. Begin to use connectives in our sentence writing.

Lime Class Curriculum Map

Summer Term – Year 1

RE

In RE, we will be learning about Judaism. We will be finding out about some of their traditions including Shabbat and what a Mezuzah is. We will also be finding out about their place of worship and the Torah.

Music

We will use percussion and our bodies expressively in response to music and perform songs considering pitch and dynamics. Use instruments to create different sounds and compose our own sounds for a group performance.

History

We will be thinking about changes in living memory and look at how toys and games have changed over time.

Geography

Where do I live? – we will be naming and identifying characteristics of the four countries that make up the United Kingdom and locate them on a map.

R(S)HE

We will focus on two topics – ‘Relationships’ and ‘Changing Me.’ We will be learning about building positive, healthy relationships and coping positively with change.

Science

Humans – We will be identifying, naming, and labelling the parts of the human body. We will also be learning about the 5 senses and recognise what body part is associated with each 1 and things we can do with each sense. We will be thinking about why exercise, eating a balanced diet and hygiene are important.

Plants - We will start with looking at what species of plants we can find on a walk around our school grounds. We will then plant a seed and learn about what plants need to grow. We will also learn about the life cycle of a plant.

Art

We will be learning fibre art skills such as plaiting, threading, knotting and weaving to create three-dimensional woven artworks inspired by artist Cecilia Vicuña.

DT

We will learn to distinguish between fruit and vegetables and where they grow. Design a fruit and vegetable smoothie and accompanying packaging.

Computing

Term 5 – Data and Information – Grouping data.

Term 6 – Creating Media – Digital writing.

PE – Each week we will have an indoor and outdoor PE session.

Term 5 – Fitness – explore and talk about what happens to our bodies when we exercise.

Term 5 – Travelling and moving – with equipment.

Term 6 – Striking and Fielding – team games.

Term 6 – Athletics – running, jumping, and throwing.
