

It's been wonderful to be back this week with your children. We have hit the floor running and have started planning the sequel to our class text 'FARThER'. This meant Oak Class, once again had their invention hats on while they thought about what they could invent, that wouldn't have been thought of in the 1920s or 1930s. This led to some interesting discussions on how far technology has come in the last 100 years!

In Maths, we have been multiplying and dividing by 10 and 100 and this has definitely had the brain cogs working.

Our Reading this term links nicely with Geography as we are looking at Coastal Processes and reading about Lighthouses. We discovered on Thursday, how much waves can change our coastlines.

I look forward to continuing our learning next week and starting the week off with Swimming in PE.

Have a lovely weekend.

Mrs Hanes.
